

On-Demand & Real-Time.

No manual processes are involved; flowcharts are generated in real-time, using production libraries.

Easy To Use.

Flowcharts are intuitive and easy to follow. Short-cuts and drop-down menus are used to perform callout functions that display additional information.

Safe & Secure.

Authentication features of LUCID provide the highest level of security.

Platform Independent.

LUCID was developed using Java, and is therefore highly transportable across various platforms.

Flexible & Adaptable.

The LUCID suite of products is designed to meet the specific needs of various user communities and includes:

- ┆ LUCID Developer Suite &
- ┆ LUCID Audit Suite

DB2 Capability.

In addition to VSAM files, tapes, reports and flat files, LUCID will identify DB2 database entities.

Real-Time Access to Source Code.

Users can view JCL and COBOL source code – without leaving the LUCID application.

What Is LUCID?

LUCID is a new top-of-the-line **automated flowcharting software** utility.

If you use IBM's Job Control Language (JCL) in your business, LUCID can eliminate the time-consuming and costly manual documentation (and subsequent perpetual maintenance) processes that your software developers & auditors perform on a regular basis.

LUCID creates immediate, on-demand, reliable flowcharts of your JCL that can be viewed on PC workstations using a simple and intuitive application.

How can LUCID help me?

- ┆ **Image Quality:** LUCID uses clear, recognizable icons for files, programs, databases and other entities. Flowcharts are easy to understand – even for novice users.
- ┆ **Everything is Real-Time:** LUCID gives you a 'real-time' image of your production environment.
- ┆ **System Catalog Information – at your fingertips:** LUCID automatically obtains system catalog information – including file attributes. It also obtains DSN and copybook information. It's all at your fingertips, displayed in LUCID– you don't need to search for it.
- ┆ **Easy to Use:** LUCID configuration panels are easy to use – and application functions are simple & intuitive.
- ┆ **Cost Effective:** It virtually eliminates the labor-intensive job of documenting your system & simplifies research and analysis – resulting in *significant* time savings. It pays to let LUCID do the work for you!

What if my needs differ from the needs of your other clients?

LUCID provides configuration options that allow a variety of users to display the exact information they need. We welcome the opportunity to develop new/different functions to meet the unique needs of your environment.

LUCID can also be customized specifically for *your* business.

If you can think it, we can implement it.

Can I test it before I buy it?

Yes, you can! We can arrange a free 'No Obligation' trial period.
